### ARCH CELEBRATES A DECADE OF SUCCESS!

- **Students Benefited from our Enrichment Programs**: 6,000+ Students
- **60K+ Hours of Academic Tutoring with ARCH tutors**

### ARCH ENRICHMENT & ACADEMIC PROGRAM PATHWAY

#### Pre-Course Assessment

- Students sit a pre-course assessment to identify which programs best suit them.

#### 2-Year Enrichment Plan

- ARCH provides a 2-year plan to map out a path for the student, tailored to his/her aspirations.

#### Enrichment & Academic Programs

- ARCH provides suggestions should we feel complementary assistance is necessary.

#### Parent-Teacher Day

- ARCH teachers provide verbal and written feedback to students and parents at the end of the term.

---

*Programs are offered through ARCH Community Outreach, the non-profit charitable arm of ARCH Education.
Our flagship program Socrates aims to instill in students the key transferable skills and intellectual tools necessary for effective lifelong learning. Mastering critical and lateral thinking prepares students for the transition from local to international schools, the intense research of IB, the in depth investigation of A Levels and current affairs analysis for DSE Liberal Studies.

This year our summer edition will be led by ARCH founder, Jennifer Ma, and our Associate Director of Education Services, Albert Ma, himself a national debater. We also welcome parent participation on the last day of the one week course!

READ+WRITE

Junior, Intermediate and Advanced learners can take a combined Reading AND Writing course. This will allow our faculty to assess each student’s language arts skills and identify areas for improvement for the coming school year. For initial skills development, Foundation learners will be offered independent reading and writing courses.

Junior (ages 9-10)

Fairy Reality

Re-interpret the classics with a plot twist on selected classics such as Goldilocks on CCTV as well as The Stepmother and the Shoes. Compose a poem to retell the story from a different perspective and create an argumentative defense for misunderstood villains like the big bad wolf.

Intermediate (ages 11-12)

Fables

With an anthology of fables from Europe to Africa, let us distill wisdom from the animals as well as mankind to write your own narrative as an allegory for mankind. Then we explore the modern interaction between human and wildlife to write your own sensational newspaper tales.

Advanced (ages 13-14)

Heroes

Explore tales of inspiration from an Anthology of Heroic Epics and selected Memoirs. Appreciate the lessons and the language that the words bring to light. Employ these skills to write a narrative for a historical figure and a memoir for a person of exemplar personal virtues.

Junior (ages 9-11)

Socrates Level 1

Join our new series of Socrates for Junior Students as we explore the relationships we have with famous companies both as individuals and as a community. Discuss topics ranging from how our diets and cravings are shaped by colors and symbols to how companies influence the design of our homes and neighborhoods. Develop your sense of observation to question the surroundings we live in, as we discuss how we make ourselves and our society better!

Socrates Level 2

Living in times of unprecedented global events helps us understand not only the important roles that the government plays but also the perspectives we need to take when looking at abstract problems that have real consequences on our daily lives. This summer series of Socrates will look at the issues of class, cash and clashes around the world, in search of a better understanding and solutions to both local and global issues that are shaping our communities.

Writing Foundation (ages 7-8)

Space & Fantasy

To see where your imagination can take you, let’s create a menu for a fantasy restaurant on Mars for astronauts and aliens from outer space! Play around with expository writing to bring out the history of your cafe in space and use descriptive techniques to invent a dish better than green eggs and ham.

Reading Foundation (ages 7-8)

Venturing into the Imaginary World

Go on an epic Out of This World Moon Pie Adventure and journey to find the Ogre. Learn new literary techniques to describe using your five senses and Onomatopoeia to add flair to your writing. Take your fantastical summer journey amongst the stars and blast off with your English reading!

Reading & Writing (ages 11-12)

Intermediates

Join our new series of Socrates for Junior Students as we explore the relationships we have with famous companies both as individuals and as a community. Discuss topics ranging from how our diets and cravings are shaped by colors and symbols to how companies influence the design of our homes and neighborhoods. Develop your sense of observation to question the surroundings we live in, as we discuss how we make ourselves and our society better!

Socrates Level 2

Living in times of unprecedented global events helps us understand not only the important roles that the government plays but also the perspectives we need to take when looking at abstract problems that have real consequences on our daily lives. This summer series of Socrates will look at the issues of class, cash and clashes around the world, in search of a better understanding and solutions to both local and global issues that are shaping our communities.
Our Public Speaking and Debate programs focus on communication skills and advocacy techniques to empower students to articulate themselves with confidence. Our programs are led by the Debate Coach & Selector of the Hong Kong Debate Team, Sandeep Chulani, and the Former Captain of the HKU Debate Team and first Worlds (WUDC) final rounds debater from Hong Kong, Albert Ma. Both have had strong track record in coaching students for international competitions, including World Schools and BPDC.

**Public Speaking Junior** (ages 9-10)
Learning classic poems and the skills to deliver recitals rich in emotion. Master the verbal and non-verbal techniques to capture the attention of your audience. Followed by guided writing of a personal story that you will narrate to share your experience and feelings with your peers.

**Public Speaking Intermediate** (ages 11-12)
Learn to speak with distinction and prepare speeches to rouse spirits and awareness on important social issues. Carry that conviction to formulate proposal presentations to improve the circumstances. Create consensus with discussions and debates to find the best solution.

Debate Level 1 (ages 11-12)
This entry level debate class introduces the world of debate to budding speakers through interactive group work and constant feedback from coaches. A combination of spoken and written practices will ignite your child’s ability to think critically about what matters.

**Debate Level 2** (ages 13-14)
Formal debate skills are honed to shape orators at this stage. Through peer brainstorming and technical exercises, our coaches will guide students through frameworks of analysis that enable them to delve into local and global issues which otherwise may seem abstract and disconnected.

**Debate Level 3** (ages 15-16)
Four competing teams in a round, live-fire interjection during a speech or sharp questions from the floor. Aspiring debaters joining this course will be trained through a series of tournament level debate motions to develop the competence to analyse, compose and deliver full speeches at the standard of regional tournaments.

Arch debate students achieved great results at Shanghai Schools Open!

The Shanghai Schools Open was held from 30th November to 1st December, 2019. Comprising of 5 preliminary rounds, the motions debated ranged from parenting & education to crime in society. At the end of the preliminary rounds, Davis (left) and Ambrose (right) ranked 2nd overall and “broke” into the finals series as the TOP Hong Kong Team. After two more intense debates, they ended their journey at the semi-finals. This was not the end of the road as they won joint-best U16 speakers as well as joint 2nd-best speakers overall, making them the best team representing Hong Kong! Comprising of over 130 participants from China, South Korea, Japan, Taiwan, Hong Kong, Australia and the USA, the competition was a great experience for our students and we look forward to more achievements from them!

“I would definitely recommend this competition to my schoolmates because I think it’s an experience that was very beneficial to me and I want them to have similar experience when practicing law.” - R.M.
