

Leadership Academy

Cultivating Leaders of Tomorrow

Community leadership and engagement, this is the new quality that Admissions Counsellors see as the new virtue and competency that schools and universities seek in prospective candidates. With that in mind the ARCH Leadership Academy aims to engage students at an intellectual and socio-emotional level through a series of discursive lectures and participation in volunteer services. Our program will equip students with mental tools, guide them to explore and analyse social welfare issues, and to propose solutions that support the community. The program will culminate in group/individual presentations where students will deliver proposals*, share experiences and receive feedbacks.

*Upon completing this course, students can further develop their proposals into their personal passion projects by enrolling into our Leadership Guidance Program. The experience gained from project work will boost students' confidence and enable them to establish distinguishable student profiles that stand out from among applicants in school and university applications.

Target Students:	12-15 years old (Rising G7-10/S1-4/Y8-11)
Date:	Aug 7-11 (Mon-Fri)
Fee:	HK\$8,200
