

Crime Scene Forensics

Led by our **CSI expert**, we will immerse students into the roles of Sherlock Holmes and Dr. Watson, as we hone their abilities of observation and deduction to apply new skills such as **fingerprinting** and **DNA analysis**. With hands on experience using a constructed crime scene, students will be able to apply physics, chemistry and biology theories in solving a crime and figure out "Whodunnit?"

- **Theory:** Physics, Chemistry, Biology
- **Skills:** Fingerprinting & DNA, Impressions & Splatters
- **Milestones:** Investigate Crime Scene, Giving Testimony

Instructor Profile:

Ms. Kiki Wong
Forensic Expert
& Communications Specialist

A veteran of criminal and civil courts, Ms. Kiki Wong comes to ARCH with her 17 years of experience in the field of forensic science. Her problem solving know-how came from the New Scotland Yard Metropolitan Police where she was trained and worked. After Kiki returned to Hong Kong, she has been working as a forensic consultant as well as a lecturer for Crime Scene Processing and Forensic Evidence.
